Details

The Singer Crowny is a high-end stationary reel of the absolute premier class. Years of know-how from product development meet state-of-the-art engineering and is therefore a technological milestone in the company's history. To emphasize this value, our product developers decided to deliver the roll in an elegant transport box, which also protects against shocks. Extremely lightweight construction, high braking power thanks to carbon brake discs (Fast Drag), precise line laying and a silky-smooth run characterize this masterful spinning reel. The combination of gunsmoke, black and silver (aluminum components) makes the Crowny a visual treat in a class of its own. Rounded off by the reliably working gear and the balanced rotor, nothing is left to be desired.
